## Product Datasheet

### Human Short/branched chain specific acyl-CoA dehydrogenase, mitochondrial (ACADSB) ELISA Kit ASC-KTE60872

Artikelname	Human Short/branched chain specific acyl-CoA dehydrogenase, mitochondrial (ACADSB) ELISA Kit
Artikelnummer	ASC-KTE60872
Hersteller Artikelnummer	KTE60872
Alternativnummer	ASC-KTE60872-48, ASC-KTE60872-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Anwendungsbeschreibung

This Human Short/branched chain specific acyl-CoA dehydrogenase, mitochondrial (ACADSB) ELISA Kit employs a two-site sandwich ELISA to quantitate ACADSB in samples. An antibody specific for ACADSB has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any ACADSB present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for ACADSB is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of ACADSB bound in the initial step. The color development is stopped and the intensity of the color is measured.
