Human Skeletal muscle Actinin-alpha2 (ACTN2) ELISA Kit ASC-KTE60899

Artikelname	Human Skeletal muscle Actinin-alpha2 (ACTN2) ELISA Kit
Artikelnummer	ASC-KTE60899
Hersteller Artikelnummer	KTE60899
Alternativnummer	ASC-KTE60899-48, ASC-KTE60899-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung

This Human Skeletal muscle Actinin-alpha2 (ACTN2) ELISA Kit employs a two-site sandwich ELISA to quantitate ACTN2 in samples. An antibody specific for ACTN2 has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any ACTN2 present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for ACTN2 is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of ACTN2 bound in the initial step. The color development is stopped and the intensity of the color is measured.
