Human Adropin (AD) ELISA Kit ASC-KTE60907

Artikelname	Human Adropin (AD) ELISA Kit
Artikelnummer	ASC-KTE60907
Hersteller Artikelnummer	KTE60907
Alternativnummer	ASC-KTE60907-48, ASC-KTE60907-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	This Human Adropin (AD) ELISA Kit employs a two-site sandwich ELISA to quantitate AD....

Anwendungsbeschreibung

This Human Adropin (AD) ELISA Kit employs a two-site sandwich ELISA to quantitate AD in samples. An antibody specific for AD has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any AD present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for AD is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of AD bound in the initial step. The color development is stopped and the intensity of the color is measured.
