## Product Datasheet

### Human Activity-dependent neuroprotector homeobox protein (ADNP) ELISA Kit ASC-KTE60943

Artikelname	Human Activity-dependent neuroprotector homeobox protein (ADNP) ELISA Kit
Artikelnummer	ASC-KTE60943
Hersteller Artikelnummer	KTE60943
Alternativnummer	ASC-KTE60943-48, ASC-KTE60943-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Anwendungsbeschreibung

This Human Activity-dependent neuroprotector homeobox protein (ADNP) ELISA Kit employs a two-site sandwich ELISA to quantitate ADNP in samples. An antibody specific for ADNP has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any ADNP present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for ADNP is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of ADNP bound in the initial step. The color development is stopped and the intensity of the color is measured.
