## Product Datasheet

### Human Serine--pyruvate aminotransferase (AGXT) ELISA Kit ASC-KTE60971

Artikelname	Human Serine--pyruvate aminotransferase (AGXT) ELISA Kit
Artikelnummer	ASC-KTE60971
Hersteller Artikelnummer	KTE60971
Alternativnummer	ASC-KTE60971-48, ASC-KTE60971-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Anwendungsbeschreibung

This Human Serine--pyruvate aminotransferase (AGXT) ELISA Kit employs a two-site sandwich ELISA to quantitate AGXT in samples. An antibody specific for AGXT has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and anyAGXT present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for AGXT is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of AGXT bound in the initial step. The color development is stopped and the intensity of the color is measured.
