Human Arginyl-tRNA Synthetase (RARS) ELISA Kit ASC-KTE60973

Artikelname	Human Arginyl-tRNA Synthetase (RARS) ELISA Kit
Artikelnummer	ASC-KTE60973
Hersteller Artikelnummer	KTE60973
Alternativnummer	ASC-KTE60973-48, ASC-KTE60973-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung

This Human Arginyl-tRNA Synthetase (RARS) ELISA Kit employs a two-site sandwich ELISA to quantitate RARS in samples. An antibody specific for RARS has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any RARS present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for RARS is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of RARS bound in the initial step. The color development is stopped and the intensity of the color is measured.
