## Product Datasheet

### Human Retinoic acid receptor gamma (RARG) ELISA Kit ASC-KTE60976

Artikelname	Human Retinoic acid receptor gamma (RARG) ELISA Kit
Artikelnummer	ASC-KTE60976
Hersteller Artikelnummer	KTE60976
Alternativnummer	ASC-KTE60976-48, ASC-KTE60976-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Anwendungsbeschreibung

This Human Retinoic acid receptor gamma (RARG) ELISA Kit employs a two-site sandwich ELISA to quantitate RARG in samples. An antibody specific for RARG has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any RARG present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for RARG is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of RARG bound in the initial step. The color development is stopped and the intensity of the color is measured.
