Human Pyroglutamylated RFamide peptide receptor (QRFPR) ELISA Kit ASC-KTE61001

Artikelname	Human Pyroglutamylated RFamide peptide receptor (QRFPR) ELISA Kit
Artikelnummer	ASC-KTE61001
Hersteller Artikelnummer	KTE61001
Alternativnummer	ASC-KTE61001-48, ASC-KTE61001-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

UniProt	Q96P65
Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung

This Human Pyroglutamylated RFamide peptide receptor (QRFPR) ELISA Kit employs a two-site sandwich ELISA to quantitate QRFPR in samples. An antibody specific for QRFPR has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any QRFPR present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for QRFPR is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of QRFPR bound in the initial step. The color development is stopped and the intensity of the color is measured.
