### Human Orexigenic neuropeptide QRFP (QRFP) ELISA Kit ASC-KTE61002

Artikelname	Human Orexigenic neuropeptide QRFP (QRFP) ELISA Kit
Artikelnummer	ASC-KTE61002
Hersteller Artikelnummer	KTE61002
Alternativnummer	ASC-KTE61002-48, ASC-KTE61002-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Anwendungsbeschreibung

This Human Orexigenic neuropeptide QRFP (QRFP) ELISA Kit employs a two-site sandwich ELISA to quantitate QRFP in samples. An antibody specific for QRFP has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any QRFP present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for QRFP is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of QRFP bound in the initial step. The color development is stopped and the intensity of the color is measured.
