Product Datasheet

Human PX domain-containing protein kinase-like protein (PXX) ELISA Kit ASC-KTE61030

Artikelname	Human PX domain-containing protein kinase-like protein (PXX) ELISA Kit
Artikelnummer	ASC-KTE61030
Hersteller Artikelnummer	KTE61030
Alternativnummer	ASC-KTE61030-48, ASC-KTE61030-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Anwendungsbeschreibung

This Human PX domain-containing protein kinase-like protein (PXK) ELISA Kit employs a two-site sandwich ELISA to quantitate PXK in samples. An antibody specific for PXK has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any PXK present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for PXK is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of PXK bound in the initial step. The color development is stopped and the intensity of the color is measured.
