Human Poliovirus receptor (PVR) ELISA Kit ASC-KTE61035

Artikelname	Human Poliovirus receptor (PVR) ELISA Kit
Artikelnummer	ASC-KTE61035
Hersteller Artikelnummer	KTE61035
Alternativnummer	ASC-KTE61035-48, ASC-KTE61035-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	This Human Poliovirus receptor (PVR) ELISA Kit employs a two-site sandwich ELISA to quantitate PVR....

Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung

This Human Poliovirus receptor (PVR) ELISA Kit employs a two-site sandwich ELISA to quantitate PVR in samples. An antibody specific for PVR has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any PVR present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for PVR is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of PVR bound in the initial step. The color development is stopped and the intensity of the color is measured.
