Product Datasheet

Human Prostaglandin F2-alpha receptor (PTGFR) ELISA Kit ASC-KTE61071

Artikelname	Human Prostaglandin F2-alpha receptor (PTGFR) ELISA Kit
Artikelnummer	ASC-KTE61071
Hersteller Artikelnummer	KTE61071
Alternativnummer	ASC-KTE61071-48, ASC-KTE61071-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung

This Human Prostaglandin F2-alpha receptor (PTGFR) ELISA Kit employs a two-site sandwich ELISA to quantitate PTGFR in samples. An antibody specific for PTGFR has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any PTGFR present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for PTGFR is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of PTGFR bound in the initial step. The color development is stopped and the intensity of the color is measured.
