Human Platelet-activating factor receptor (PTAFR) ELISA Kit ASC-KTE61077

Artikelname	Human Platelet-activating factor receptor (PTAFR) ELISA Kit
Artikelnummer	ASC-KTE61077
Hersteller Artikelnummer	KTE61077
Alternativnummer	ASC-KTE61077-48, ASC-KTE61077-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	This Human Platelet-activating factor receptor (PTAFR) ELISA Kit employs a two-site sandwich ELISA to quantitate PTAFR....

Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung

This Human Platelet-activating factor receptor (PTAFR) ELISA Kit employs a two-site sandwich ELISA to quantitate PTAFR in samples. An antibody specific for PTAFR has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any PTAFR present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for PTAFR is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of PTAFR bound in the initial step. The color development is stopped and the intensity of the color is measured.
