Human Protein S (PROS) ELISA Kit ASC-KTE61121

Artikelname	Human Protein S (PROS) ELISA Kit
Artikelnummer	ASC-KTE61121
Hersteller Artikelnummer	KTE61121
Alternativnummer	ASC-KTE61121-48, ASC-KTE61121-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Anwendungsbeschreibung

This Human Protein S (PROS) ELISA Kit employs a two-site sandwich ELISA to quantitate PROS in samples. An antibody specific for PROS has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any PROS present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for PROS is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of PROS bound in the initial step. The color development is stopped and the intensity of the color is measured.
