Product Datasheet

Human Soluble endothelial protein C receptor (sEPCR) ELISA Kit ASC-KTE61135

Artikelname	Human Soluble endothelial protein C receptor (sEPCR) ELISA Kit
Artikelnummer	ASC-KTE61135
Hersteller Artikelnummer	KTE61135
Alternativnummer	ASC-KTE61135-48, ASC-KTE61135-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	This Human Soluble endothelial protein C receptor (sEPCR) ELISA Kit employs a two-site sandwich ELISA to quantitate PROCR....
Detektionsbereich	Please inquire

Tag	PROCR
NCBI	10544
UniProt	Q9UNN8
Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung

This Human Soluble endothelial protein C receptor (sEPCR) ELISA Kit employs a two-site sandwich ELISA to quantitate PROCR in samples. An antibody specific for PROCR has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any PROCR present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for PROCR is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of PROCR bound in the initial step. The color development is stopped and the intensity of the color is measured.
