## Product Datasheet

### Human CAMP-dependent protein kinase catalytic subunit gamma (PRKACG) ELISA Kit ASC-KTE61153

Artikelname	Human CAMP-dependent protein kinase catalytic subunit gamma (PRKACG) ELISA Kit
Artikelnummer	ASC-KTE61153
Hersteller Artikelnummer	KTE61153
Alternativnummer	ASC-KTE61153-48, ASC-KTE61153-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Anwendungsbeschreibung

This Human CAMP-dependent protein kinase catalytic subunit gamma (PRKACG) ELISA Kit employs a two-site sandwich ELISA to quantitate PRKACG in samples. An antibody specific for PRKACG has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any PRKACG present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for PRKACG is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of PRKACG bound in the initial step. The color development is stopped and the intensity of the color is measured.
