### Human Urokinase-type Plasminogen Activator Receptor (PLAUR/uPAR) ELISA Kit ASC-KTE61207

Artikelname	Human Urokinase-type Plasminogen Activator Receptor (PLAUR/uPAR) ELISA Kit
Artikelnummer	ASC-KTE61207
Hersteller Artikelnummer	KTE61207
Alternativnummer	ASC-KTE61207-48, ASC-KTE61207-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Anwendungsbeschreibung

This Human Urokinase-type Plasminogen Activator Receptor (PLAUR/uPAR) ELISA Kit employs a two-site sandwich ELISA to quantitate PLAUR/uPAR in samples. An antibody specific for PLAUR/uPAR has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any PLAUR/uPAR present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for PLAUR/uPAR is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of PLAUR/uPAR bound in the initial step. The color development is stopped and the intensity of the color is measured.
