## Product Datasheet

### Human Progesterone induced blocking factor (PIBF) ELISA Kit ASC-KTE61214

Artikelname	Human Progesterone induced blocking factor (PIBF) ELISA Kit
Artikelnummer	ASC-KTE61214
Hersteller Artikelnummer	KTE61214
Alternativnummer	ASC-KTE61214-48, ASC-KTE61214-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Anwendungsbeschreibung

This Human Progesterone induced blocking factor (PIBF) ELISA Kit employs a two-site sandwich ELISA to quantitate PIBF1 in samples. An antibody specific for PIBF1 has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any PIBF1 present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for PIBF1 is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of PIBF1 bound in the initial step. The color development is stopped and the intensity of the color is measured.
