Human Proenkephalin (PENK) ELISA Kit ASC-KTE61251

Artikelname	Human Proenkephalin (PENK) ELISA Kit
Artikelnummer	ASC-KTE61251
Hersteller Artikelnummer	KTE61251
Alternativnummer	ASC-KTE61251-48, ASC-KTE61251-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	This Human Proenkephalin (PENK) ELISA Kit employs a two-site sandwich ELISA to quantitate PENK....
Detektionsbereich	Please inquire
Sensitivitaet	Please inquire
Tag	PENK
NCBI	5179

Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung

This Human Proenkephalin (PENK) ELISA Kit employs a two-site sandwich ELISA to quantitate PENK in samples. An antibody specific for PENK has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any PENK present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for PENK is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of PENK bound in the initial step. The color development is stopped and the intensity of the color is measured.
