### Human Beta-type platelet-derived growth factor receptor (PDGFRB) ELISA Kit ASC-KTE61268

Artikelname	Human Beta-type platelet-derived growth factor receptor (PDGFRB) ELISA Kit
Artikelnummer	ASC-KTE61268
Hersteller Artikelnummer	KTE61268
Alternativnummer	ASC-KTE61268-48, ASC-KTE61268-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Anwendungsbeschreibung

This Human Beta-type platelet-derived growth factor receptor (PDGFRB) ELISA Kit employs a two-site sandwich ELISA to quantitate PDGFRB in samples. An antibody specific for PDGFRB has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any PDGFRB present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for PDGFRB is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of PDGFRB bound in the initial step. The color development is stopped and the intensity of the color is measured.
