### Human Platelet activating factor (PAF) ELISA Kit ASC-KTE61317

Artikelname	Human Platelet activating factor (PAF) ELISA Kit
Artikelnummer	ASC-KTE61317
Hersteller Artikelnummer	KTE61317
Alternativnummer	ASC-KTE61317-48, ASC-KTE61317-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Anwendungsbeschreibung

This Human Platelet activating factor (PAF) ELISA Kit employs a two-site sandwich ELISA to quantitate PAF in samples. An antibody specific for PAF has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any PAF present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for PAF is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of PAF bound in the initial step. The color development is stopped and the intensity of the color is measured.
