Human Natural cytotoxicity triggering receptor 1 (NCR1) ELISA Kit ASC-KTE61337

Artikelname	Human Natural cytotoxicity triggering receptor 1 (NCR1) ELISA Kit
Artikelnummer	ASC-KTE61337
Hersteller Artikelnummer	KTE61337
Alternativnummer	ASC-KTE61337-48, ASC-KTE61337-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	This Human Natural cytotoxicity triggering receptor 1 (NCR1) ELISA Kit employs a two-site sandwich ELISA to quantitate NCR1....

Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung

This Human Natural cytotoxicity triggering receptor 1 (NCR1) ELISA Kit employs a two-site sandwich ELISA to quantitate NCR1 in samples. An antibody specific for NCR1 has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any NCR1 present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for NCR1 is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of NCR1 bound in the initial step. The color development is stopped and the intensity of the color is measured.
