Human Neurocan core protein (NCAN) ELISA Kit ASC-KTE61348

Artikelname	Human Neurocan core protein (NCAN) ELISA Kit
Artikelnummer	ASC-KTE61348
Hersteller Artikelnummer	KTE61348
Alternativnummer	ASC-KTE61348-48, ASC-KTE61348-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	This Human Neurocan core protein (NCAN) ELISA Kit employs a two-site sandwich ELISA to quantitate NCAN....

Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung

This Human Neurocan core protein (NCAN) ELISA Kit employs a two-site sandwich ELISA to quantitate NCAN in samples. An antibody specific for NCAN has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any NCAN present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for NCAN is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of NCAN bound in the initial step. The color development is stopped and the intensity of the color is measured.
