## Product Datasheet

### Human Neurocalcin-delta (NCALD) ELISA Kit ASC-KTE61351

Artikelname	Human Neurocalcin-delta (NCALD) ELISA Kit
Artikelnummer	ASC-KTE61351
Hersteller Artikelnummer	KTE61351
Alternativnummer	ASC-KTE61351-48, ASC-KTE61351-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Anwendungsbeschreibung

This Human Neurocalcin-delta (NCALD) ELISA Kit employs a two-site sandwich ELISA to quantitate NCALD in samples. An antibody specific for NCALD has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any NCALD present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for NCALD is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of NCALD bound in the initial step. The color development is stopped and the intensity of the color is measured.
