Human Nuclear autoantigenic sperm protein (NASP) ELISA Kit ASC-KTE61373

Artikelname	Human Nuclear autoantigenic sperm protein (NASP) ELISA Kit
Artikelnummer	ASC-KTE61373
Hersteller Artikelnummer	KTE61373
Alternativnummer	ASC-KTE61373-48, ASC-KTE61373-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	This Human Nuclear autoantigenic sperm protein (NASP) ELISA Kit employs a two-site sandwich ELISA to quantitate NASP....

Tag	NASP
NCBI	4678
UniProt	P49321
Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung

This Human Nuclear autoantigenic sperm protein (NASP) ELISA Kit employs a two-site sandwich ELISA to quantitate NASP in samples. An antibody specific for NASP has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any NASP present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for NASP is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of NASP bound in the initial step. The color development is stopped and the intensity of the color is measured.
