Human Putative myosin-XVB (MYO15B) ELISA Kit ASC-KTE61431

Artikelname	Human Putative myosin-XVB (MYO15B) ELISA Kit
Artikelnummer	ASC-KTE61431
Hersteller Artikelnummer	KTE61431
Alternativnummer	ASC-KTE61431-48, ASC-KTE61431-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	This Human Putative myosin-XVB (MYO15B) ELISA Kit employs a two-site sandwich ELISA to quantitate MYO15B....

Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung

This Human Putative myosin-XVB (MYO15B) ELISA Kit employs a two-site sandwich ELISA to quantitate MYO15B in samples. An antibody specific for MYO15B has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any MYO15B present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for MYO15B is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of MYO15B bound in the initial step. The color development is stopped and the intensity of the color is measured.
