Human Mammalian target of rapamycin (MTOR) ELISA Kit ASC-KTE61481

Artikelname	Human Mammalian target of rapamycin (MTOR) ELISA Kit
Artikelnummer	ASC-KTE61481
Hersteller Artikelnummer	KTE61481
Alternativnummer	ASC-KTE61481-48, ASC-KTE61481-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Tag	MTOR
Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung

This Human Mammalian target of rapamycin (MTOR) ELISA Kit employs a two-site sandwich ELISA to quantitate MTOR in samples. An antibody specific for MTOR has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any MTOR present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for MTOR is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of MTOR bound in the initial step. The color development is stopped and the intensity of the color is measured.
