## Product Datasheet

### Human Metallothionein-1M (MT1M) ELISA Kit ASC-KTE61508

Artikelname	Human Metallothionein-1M (MT1M) ELISA Kit
Artikelnummer	ASC-KTE61508
Hersteller Artikelnummer	KTE61508
Alternativnummer	ASC-KTE61508-48, ASC-KTE61508-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Anwendungsbeschreibung

This Human Metallothionein-1M (MT1M) ELISA Kit employs a two-site sandwich ELISA to quantitate MT1M in samples. An antibody specific for MT1M has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any MT1M present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for MT1M is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of MT1M bound in the initial step. The color development is stopped and the intensity of the color is measured.
