Human Mannose-6-phosphate isomerase (MPI) ELISA Kit ASC-KTE61562

Artikelname	Human Mannose-6-phosphate isomerase (MPI) ELISA Kit
Artikelnummer	ASC-KTE61562
Hersteller Artikelnummer	KTE61562
Alternativnummer	ASC-KTE61562-48, ASC-KTE61562-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	This Human Mannose-6-phosphate isomerase (MPI) ELISA Kit employs a two-site sandwich ELISA to quantitate MPI....

Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung

This Human Mannose-6-phosphate isomerase (MPI) ELISA Kit employs a two-site sandwich ELISA to quantitate MPI in samples. An antibody specific for MPI has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any MPI present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for MPI is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of MPI bound in the initial step. The color development is stopped and the intensity of the color is measured.
