### Human Mannose-P-dolichol utilization defect 1 protein (MPDU1) ELISA Kit ASC-KTE61570

Artikelname	Human Mannose-P-dolichol utilization defect 1 protein (MPDU1) ELISA Kit
Artikelnummer	ASC-KTE61570
Hersteller Artikelnummer	KTE61570
Alternativnummer	ASC-KTE61570-48, ASC-KTE61570-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Anwendungsbeschreibung

This Human Mannose-P-dolichol utilization defect 1 protein (MPDU1) ELISA Kit employs a two-site sandwich ELISA to quantitate MPDU1 in samples. An antibody specific for MPDU1 has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and anyMPDU1 present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for MPDU1 is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of MPDU1 bound in the initial step. The color development is stopped and the intensity of the color is measured.
