## Product Datasheet

### Human Max-binding protein MNT (MNT) ELISA Kit ASC-KTE61576

Artikelname	Human Max-binding protein MNT (MNT) ELISA Kit
Artikelnummer	ASC-KTE61576
Hersteller Artikelnummer	KTE61576
Alternativnummer	ASC-KTE61576-48, ASC-KTE61576-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	This Human Max-binding protein MNT (MNT) ELISA Kit employs a two-site sandwich ELISA to quantitate MNT....

Anwendungsbeschreibung

This Human Max-binding protein MNT (MNT) ELISA Kit employs a two-site sandwich ELISA to quantitate MNT in samples. An antibody specific for MNT has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any MNT present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for MNT is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of MNT bound in the initial step. The color development is stopped and the intensity of the color is measured.
