### Human MMS19 nucleotide excision repair protein homolog (MMS19) ELISA Kit ASC-KTE61582

Artikelname	Human MMS19 nucleotide excision repair protein homolog (MMS19) ELISA Kit
Artikelnummer	ASC-KTE61582
Hersteller Artikelnummer	KTE61582
Alternativnummer	ASC-KTE61582-48, ASC-KTE61582-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Anwendungsbeschreibung

This Human MMS19 nucleotide excision repair protein homolog (MMS19) ELISA Kit employs a two-site sandwich ELISA to quantitate MMS19 in samples. An antibody specific for MMS19 has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any MMS19 present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for MMS19 is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of MMS19 bound in the initial step. The color development is stopped and the intensity of the color is measured.
