### Human Melanoma antigen recognized by T-cells 1 (MLANA) ELISA Kit ASC-KTE61603

Artikelname	Human Melanoma antigen recognized by T-cells 1 (MLANA) ELISA Kit
Artikelnummer	ASC-KTE61603
Hersteller Artikelnummer	KTE61603
Alternativnummer	ASC-KTE61603-48, ASC-KTE61603-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Anwendungsbeschreibung

This Human Melanoma antigen recognized by T-cells 1 (MLANA) ELISA Kit employs a two-site sandwich ELISA to quantitate MLANA in samples. An antibody specific for MLANA has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any MLANA present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for MLANA is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of MLANA bound in the initial step. The color development is stopped and the intensity of the color is measured.
