Human Matrix extracellular phosphoglycoprotein (MEPE) ELISA Kit ASC-KTE61650

Artikelname	Human Matrix extracellular phosphoglycoprotein (MEPE) ELISA Kit
Artikelnummer	ASC-KTE61650
Hersteller Artikelnummer	KTE61650
Alternativnummer	ASC-KTE61650-48, ASC-KTE61650-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	This Human Matrix extracellular phosphoglycoprotein (MEPE) ELISA Kit employs a two-site sandwich ELISA to quantitate MEPE....
Detektionsbereich	Please inquire

Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung

This Human Matrix extracellular phosphoglycoprotein (MEPE) ELISA Kit employs a two-site sandwich ELISA to quantitate MEPE in samples. An antibody specific for MEPE has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any MEPE present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for MEPE is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of MEPE bound in the initial step. The color development is stopped and the intensity of the color is measured.
