### Human Trans-2-enoyl-CoA reductase, mitochondrial (MECR) ELISA Kit ASC-KTE61674

Artikelname	Human Trans-2-enoyl-CoA reductase, mitochondrial (MECR) ELISA Kit
Artikelnummer	ASC-KTE61674
Hersteller Artikelnummer	KTE61674
Alternativnummer	ASC-KTE61674-48, ASC-KTE61674-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Anwendungsbeschreibung

This Human Trans-2-enoyl-CoA reductase, mitochondrial (MECR) ELISA Kit employs a two-site sandwich ELISA to quantitate MECR in samples. An antibody specific for MECR has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any MECR present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for MECR is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of MECR bound in the initial step. The color development is stopped and the intensity of the color is measured.
