Human Midkine (MK) ELISA Kit ASC-KTE61678

Artikelname	Human Midkine (MK) ELISA Kit
Artikelnummer	ASC-KTE61678
Hersteller Artikelnummer	KTE61678
Alternativnummer	ASC-KTE61678-48, ASC-KTE61678-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	This Human Midkine (MK) ELISA Kit employs a two-site sandwich ELISA to quantitate MDK....
Detektionsbereich	Please inquire
Sensitivitaet	Please inquire
Tag	MDK

Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung

This Human Midkine (MK) ELISA Kit employs a two-site sandwich ELISA to quantitate MDK in samples. An antibody specific for MDK has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any MDK present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for MDK is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of MDK bound in the initial step. The color development is stopped and the intensity of the color is measured.
