Human Induced myeloid leukemia cell differentiation protein Mcl-1 (MCL1) ELISA Kit ASC-KTE61693

Artikelname	Human Induced myeloid leukemia cell differentiation protein Mcl-1 (MCL1) ELISA Kit
Artikelnummer	ASC-KTE61693
Hersteller Artikelnummer	KTE61693
Alternativnummer	ASC-KTE61693-48, ASC-KTE61693-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Anwendungsbeschreibung

This Human Induced myeloid leukemia cell differentiation protein Mcl-1 (MCL1) ELISA Kit employs a two-site sandwich ELISA to quantitate MCL1 in samples. An antibody specific for MCL1 has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any MCL1 present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for MCL1 is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of MCL1 bound in the initial step. The color development is stopped and the intensity of the color is measured.
