Human Melanocortin receptor 5 (MC5R) ELISA Kit ASC-KTE61698

Artikelname	Human Melanocortin receptor 5 (MC5R) ELISA Kit
Artikelnummer	ASC-KTE61698
Hersteller Artikelnummer	KTE61698
Alternativnummer	ASC-KTE61698-48, ASC-KTE61698-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung

This Human Melanocortin receptor 5 (MC5R) ELISA Kit employs a two-site sandwich ELISA to quantitate MC5R in samples. An antibody specific for MC5R has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any MC5R present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for MC5R is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of MC5R bound in the initial step. The color development is stopped and the intensity of the color is measured.
