Human Mitochondrial antiviral-signaling protein (MAVS) ELISA Kit ASC-KTE61707

Artikelname	Human Mitochondrial antiviral-signaling protein (MAVS) ELISA Kit
Artikelnummer	ASC-KTE61707
Hersteller Artikelnummer	KTE61707
Alternativnummer	ASC-KTE61707-48, ASC-KTE61707-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	This Human Mitochondrial antiviral-signaling protein (MAVS) ELISA Kit employs a two-site sandwich ELISA to quantitate MAVS....

Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung

This Human Mitochondrial antiviral-signaling protein (MAVS) ELISA Kit employs a two-site sandwich ELISA to quantitate MAVS in samples. An antibody specific for MAVS has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any MAVS present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for MAVS is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of MAVS bound in the initial step. The color development is stopped and the intensity of the color is measured.
