Human Myristoylated alanine-rich C-kinase substrate (MARCKS) ELISA Kit ASC-KTE61722

Artikelname	Human Myristoylated alanine-rich C-kinase substrate (MARCKS) ELISA Kit
Artikelnummer	ASC-KTE61722
Hersteller Artikelnummer	KTE61722
Alternativnummer	ASC-KTE61722-48, ASC-KTE61722-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Anwendungsbeschreibung

This Human Myristoylated alanine-rich C-kinase substrate (MARCKS) ELISA Kit employs a two-site sandwich ELISA to quantitate MARCKS in samples. An antibody specific for MARCKS has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any MARCKS present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for MARCKS is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of MARCKS bound in the initial step. The color development is stopped and the intensity of the color is measured.
