## Product Datasheet

### Human Tumor necrosis factor receptor superfamily member 3 (LTBR) ELISA Kit ASC-KTE61769

Artikelname	Human Tumor necrosis factor receptor superfamily member 3 (LTBR) ELISA Kit
Artikelnummer	ASC-KTE61769
Hersteller Artikelnummer	KTE61769
Alternativnummer	ASC-KTE61769-48, ASC-KTE61769-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Anwendungsbeschreibung

This Human Tumor necrosis factor receptor superfamily member 3 (LTBR) ELISA Kit employs a two-site sandwich ELISA to quantitate LTBR in samples. An antibody specific for LTBR has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any LTBR present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for LTBR is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of LTBR bound in the initial step. The color development is stopped and the intensity of the color is measured.
