### Human Lymphotoxin beta (LTB) ELISA Kit ASC-KTE61773

Artikelname	Human Lymphotoxin beta (LTB) ELISA Kit
Artikelnummer	ASC-KTE61773
Hersteller Artikelnummer	KTE61773
Alternativnummer	ASC-KTE61773-48, ASC-KTE61773-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Anwendungsbeschreibung

This Human Lymphotoxin beta (LTB) ELISA Kit employs a two-site sandwich ELISA to quantitate LTB in samples. An antibody specific for LTB has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any LTB present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for LTB is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of LTB bound in the initial step. The color development is stopped and the intensity of the color is measured.
