Human Lipolysis-stimulated lipoprotein receptor (LSR) ELISA Kit ASC-KTE61775

Artikelname	Human Lipolysis-stimulated lipoprotein receptor (LSR) ELISA Kit
Artikelnummer	ASC-KTE61775
Hersteller Artikelnummer	KTE61775
Alternativnummer	ASC-KTE61775-48, ASC-KTE61775-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	This Human Lipolysis-stimulated lipoprotein receptor (LSR) ELISA Kit employs a two-site sandwich ELISA to quantitate LSR....

Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung

This Human Lipolysis-stimulated lipoprotein receptor (LSR) ELISA Kit employs a two-site sandwich ELISA to quantitate LSR in samples. An antibody specific for LSR has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any LSR present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for LSR is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of LSR bound in the initial step. The color development is stopped and the intensity of the color is measured.
