### Human Lipoprotein alpha (Lp-a) ELISA Kit ASC-KTE61786

Artikelname	Human Lipoprotein alpha (Lp-a) ELISA Kit
Artikelnummer	ASC-KTE61786
Hersteller Artikelnummer	KTE61786
Alternativnummer	ASC-KTE61786-48, ASC-KTE61786-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	This Human Lipoprotein alpha (Lp-a) ELISA Kit employs a two-site sandwich ELISA to quantitate Lp-a....
Detektionsbereich	Please inquire

Tag	Lp-a
Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung

This Human Lipoprotein alpha (Lp-a) ELISA Kit employs a two-site sandwich ELISA to quantitate Lp-a in samples. An antibody specific for Lp-a has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any Lp-a present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for Lp-a is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of Lp-a bound in the initial step. The color development is stopped and the intensity of the color is measured.
