## Product Datasheet

### Human Cytochrome b-245 heavy chain (CYBB) ELISA Kit ASC-KTE62182

Artikelname	Human Cytochrome b-245 heavy chain (CYBB) ELISA Kit
Artikelnummer	ASC-KTE62182
Hersteller Artikelnummer	KTE62182
Alternativnummer	ASC-KTE62182-48, ASC-KTE62182-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Anwendungsbeschreibung

This Human Cytochrome b-245 heavy chain (CYBB) ELISA Kit employs a two-site sandwich ELISA to quantitate CYBB in samples. An antibody specific for CYBB has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any CYBB present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for CYBB is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of CYBB bound in the initial step. The color development is stopped and the intensity of the color is measured.
