Human Lysophosphatidic acid (LPA) ELISA Kit ASC-KTE62534

Artikelname	Human Lysophosphatidic acid (LPA) ELISA Kit
Artikelnummer	ASC-KTE62534
Hersteller Artikelnummer	KTE62534
Alternativnummer	ASC-KTE62534-48, ASC-KTE62534-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human

Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung

This Human Lysophosphatidic acid (LPA) ELISA Kit employs a two-site sandwich ELISA to quantitate LPA in samples. An antibody specific for LPA has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any LPA present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for LPA is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of LPA bound in the initial step. The color development is stopped and the intensity of the color is measured.
