Human Dopamine (DA) ELISA Kit ASC-KTE62887

Artikelname	Human Dopamine (DA) ELISA Kit
Artikelnummer	ASC-KTE62887
Hersteller Artikelnummer	KTE62887
Alternativnummer	ASC-KTE62887-48, ASC-KTE62887-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Human
Produktbeschreibung	Null employs a two-site sandwich ELISA to quantitate Dopamine in samples....
Detektionsbereich	7.5 ng/L-120 ng/L
Sensitivitaet	0.5 ng/L
Tag	Dopamine
Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung

Human Dopamine (DA) ELISA Kit employs a two-site sandwich ELISA to quantitate Dopamine in samples. An antibody specific for Dopamine has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any Dopamine present is bound by the immobilized antibody. After removing any unbound substances, HRP-Conjugate Human Dopamine detection antibody is added to the wells. Following a wash to remove any unbound HRP reagent, a Chromogen solution is added to the wells and color develops in proportion to the amount of Dopamine bound in the initial step. The color development is stopped and the intensity of the color is measured.
