Product Datasheet

Mouse DNA repair protein complementing XP-C cells (XPC) ELISA Kit ASC-KTE70002

Artikelname	Mouse DNA repair protein complementing XP-C cells (XPC) ELISA Kit
Artikelnummer	ASC-KTE70002
Hersteller Artikelnummer	KTE70002
Alternativnummer	ASC-KTE70002-48, ASC-KTE70002-96
Hersteller	Abbkine Scientific
Kategorie	Kits/Assays
Applikation	ELISA
Spezies Reaktivität	Mouse
Produktbeschreibung	This Mouse DNA repair protein complementing XP-C cells (XPC) ELISA Kit employs a two-site sandwich ELISA to quantitate XPC....

UniProt	P51612
Proben	Cell culture supernatantsSerumPlasmaOther biological fluids

Anwendungsbeschreibung

This Mouse DNA repair protein complementing XP-C cells (XPC) ELISA Kit employs a two-site sandwich ELISA to quantitate XPC in samples. An antibody specific for XPC has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any XPC present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for XPC is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of XPC bound in the initial step. The color development is stopped and the intensity of the color is measured.
