| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FACS, IHC, WB                                                                                                                                                                                                                                                 |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A partial length recombinant MBD3 protein (amino acids 1-290) was used as the immunogen for this antibody.                                                                                                                                                    |
| Produktbeschreibung      | MBD2 is a subunit of the NuRD complex that is postulated to mediate gene repression via recruitment of the complex to methylated DNA. This protein binds around 1 kb downstream of the transcription start site of a subset of 400 CpG island promoters th... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [ABM14A8]                                                                                                                                                                                                                                                     |
