| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FACS                                                                                                                                                                                                                                                          |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A partial length recombinant protein of PD-L1 (amino acid 13-224) was used as the immunogen for this antibody.                                                                                                                                                |
| Konjugation              | FITC                                                                                                                                                                                                                                                          |
| Produktbeschreibung      | PD-L1 (CD274/B7-H1) is a critical membrane-bound costimulatory molecule belonging to the B7 superfamily that inhibits immune responses through its receptor, PD-1. PD-L1 plays a key role in the pathogenesis of inflammatory diseases (programmed death 1... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [ABM5F25]                                                                                                                                                                                                                                                     |

|                        |                                             |
